

Echo Cardiology Technician

1 Year Contract Position

(with possibility of extension)

Echo Cardiology Technician required for a one year contract position within a state-of-the-art private medical facility. In this role, you will conduct various tests such as ECG, ECHO, exercise tolerance and holter monitoring, with the ability to analyze and summarize test results for interpretation by medical staff in clinical diagnosis.

- Graduation from a recognized program in ECG technology
- Current registration with the Cardiology Technologists Association
- Ability to communicate and deal with others effectively while providing a high level of customer service to patients

Position required for our Winnipeg location. The successful candidate will be well compensated and will be provided with an accommodation allowance and travel expenses.

Join our team and make a difference in healthcare!
